CLARK FALLS AGAIN, 25-20 RELAYISTS NOSE OUT COLBY

TECH BASKETBALL TEAM EASILY TAKES CLARK INTO CAMP AS EVER

Norton, Sukaskus, Warwick Stand Out for Tech in Slow Game at South High

Clark gave Tech a good scare in the first of the two annual basketball games between these two colleges, but in the end the Tech team came out on top to the tune of 25 to 20.

The game started in a lack-luster manner, the players on both teams waiting for the other side to begin the fireworks. It was a game of defensive play with little in the way of offensive tactics as is evidenced by the score, one of the lowest of the season for Tech. Swenson opened the scoring with a floor goal after both teams had dilly-dallied for two minutes, waiting for the game to start to open up. But following this initial bit of scoring, Bill Brierly, Clark ace, got busy and caged two floor goals in a row. From this point on, Clark held the lead until well into the second half. During this period the game was slow and uncertain.

After several minutes of the second half had passed Clark was still ahead. Then Tech began to pick up speed; at about the same time Tech made its only substitution, Borden being inserted into the game. Tech caged several goals and got into the lead and from then on it was only a question of scoring enough goals to keep ahead of the drooping and panting Clark men who were again following the Tech men around as of old—the master and the slave motif! The game ended with Clark striving bravely but in vain.

Clark showed a surprising strength in holding Tech to such a score. Defensively, Clark was excellent, but as their star, Brierly, was well guarded by the Tech team, their offense could not get into action.

Norton and Swenson were high scorers with nine points apiece. Capt. Mike Warwick and Joe Sukaskas did a fine job of guarding the Tech basket.

In the preliminary the Tech Seconds defeated the Clark Jayvees by a 22 to 15 score.

THETA CHI WINS BASKETBALL CUP

Intramural League Closes With P. S. K. Second and T. U. O. and P. G. D. Tied for Third.

The Inter-Fraternity basketball season came to a close two weeks ago last Friday. The final checkup found T. X. in the lead with a record of eight wins and no losses, followed closely by P. S. K. with one defeat out of their eight games.

Monday found P. S. K. taking the measure of S. A. E. 31 to 19. Michel took scoring honors for P. S. K. with 17 points and Perry was high scorer for S. A. E. with 9 points. In the other game of the evening T. X. ran away from A. T. O. 33 to 17. Rothemich and Botcher were the leading scorers with 14 and 11 points apiece for the winners, with Berrell getting 6 points for A. T. O.

On Tuesday night A. T. O. won its first game at the expense of S. A. E. Berrell and Driscoll split the scoring honors with eight points apiece. On the twin bill T. X. beat T. U. O. 30 to 9. Rothemich and Merriam scored 10 and 5 points apiece.

In the first game, Wednesday night, T. U. O. defeated P. G. D. 16 to 9. Hibbard and Shepardson were the leading point-getters for their respective teams. In the second game, the Friars defeated S. O. P. 26 to 14. Monteville caged five floor baskets for the winners while Gowdey and Sadick scored seven points apiece. In both these games the losing teams were each held to a floor basket apiece in the second half.

On Thursday T. X. finished its season undefeated by taking P. G. D. 25 to 16. Rothemich and LeDuc were high scorers. In the second game L. X. A. took S. A. E. 26 to 10. Stone with 7 points and Perry with 5 made the score go up. On the final night of the season A. T. O. won its second game at the expense of S. O. P. by a score of 27 to 11. Berrell and Sigda netted 10 and 6 points apiece for the winners, while Sadick picked up 3 points for S. O. P.

In the second game of the evening and the last game of the season the Friars in a very close and interesting game managed to trim T. U. O. with a score of 18 to 16. Nolan and Gowdey were the high scorers for the winners and Spencer and Merriam shared high scoring honors for T. U. O.

TECH NATATORS BOW TO R. P. I.

Swimming Team Delayed En Route by Snow

The Rensselaer Polytechnic Institute swimming team easily defeated the Worcester Tech swimmers, January 27, by the score of 63 to 21. R. P. I. captured firsts in all nine events at the meet held in the gymnasium at Troy.

Our swimmers were on the road six hours and were delayed considerably by ice and snow and by a breakdown west of Pittsfield. They were late in arriving in Troy and had to climb into their swimming suits and go into the meet with no time in between to rest up, thus handicapping them considerably.

The first event was the 400 yd. relay, free-style, and was one of the closest races of the evening. The time turned in by R. P. I. was but two-fifths of a second above that of the tank record. Wiley, Gray, Falvey, and McNulty swam for Worcester in this event.

Falvey did well in both the 220 and 440 yd. free-style, capturing a second in the 220 and a third in the 440. Bruce's diving was to be commended but Henry of R. P. I. was too much for him. Lane and McNulty both placed after Machon in the backstroke. Captain Adrian Maxwell of R. P. I. (Continued on Page 6, Col. 1)

RELAY TEAM DROPS TO R. I. BUT DEFEATS COLBY IN CLOSE FINISH

Denning, Egan, Hatch and Sullivan Compromise Team—Outlook for the Rest of the Year Very Promising—
University Club Meet Next

NEW HAMPSHIRE LOSES TO TECH

Fine Shooting Gives Edge to the Engineers

Tech's basketball team won again on Saturday, the 27th, at the expense of a well coached New Hampshire team by a score of 47-38. Swenson set the pace for Tech, getting six floor baskets and three points from the free throw line. New Hampshire's talented forward stole the scoring honors with a total of eighteen points, eight field goals and two gift shots.

The Wildcats jumped into the lead at the very beginning and threatened throughout but failed to overcome the Crimson and Gray lead, once they had fallen behind. The entire Boynton Hill team found its eye and that determined the final score. The visitors possessed a better passing team and displayed better team work, and if they had only had another marksman of the same caliber as Bronstein the final outcome might have been different.

Sonny Norton broke the ice for Tech with a one-handed shot and then Fritz Hendrickson swished home a beautiful shot from the side. Norton again slipped away from his personal guardian and scored from a tap-off on an easy shot from under the basket. At this stage New Hampshire took time out. On resumption of play, Swenson sunk a shot from the foul line which tied up the score at seven all. Sukaskas put the Bigler coached team ahead, soon after, on a free try and the Engineers remained in front for the rest of the game. Swenson, Warwick, and Hendrickson came through with bulls-eyes and Tech reached a total of fourteen before the invaders scored again on a basket try by Koehler.

The game was going at whirlwind speed at this stage and both Tech and New Hampshire were missing the hoop often with their hurried shots. Snaring a wild New Hampshire heave, Hendrickson hurled the ball down the floor to Swenson and the Tech pivot player dropped in an easy one-hand shot from under the hoop. Another fast tap-off play found Norton again sinking the sphere from the corner, and this was followed rapidly by Warwick's heave over the shoulder to put Tech ahead 21-11. The rest of the half was featured by close guarding but Joslin managed to sink a shot for the visitors (Continued on Page 3, Col. 1)

Colby and Worcester Polytech had it out in a mile relay clash won by Worcester, furnishing one of the greatest thrills of the evening. Colby went into an early lead with Worcester never out of the running.

For three legs, the Maine athletes were in the first position, but when the baton was swapped for the final stretch, Worcester jumped to the front. Paul Sullivan anchoring for Worcester and Vevin closing up for Colby.

Bevin challenged on the final loop and had he not run beside Sullivan for the entire lap the result may have been different. As it was, Sullivan held off the Colby challenge and won by a scant six inches in 3:37 4-5.

The team mentioned above representing Tech is composed of the following men: Bob Denning, Charley Egan, Ed. Hatch, and Paul Sullivan.

The outlook for the season is very good as can be seen and with a little more time and practice together, this team is sure to hang up more laurels for Tech.

K. OF C. GAMES

On Saturday, January 27 the Tech relay team ran its initial race of the season in the K. of C. games held in Boston.

Running in the mile relay for small colleges Tech stacked up against Rhode Island State College and Massachusetts State College. The results were not as favorable as had been hoped for and Tech finished in second place.

Rhode Island set the pace from the start and gained about ten yards on Tech who in turn left the Mass. State team about twice that distance behind. The time of the winners was 3:36 which was somewhat slower than some of the other times turned in for the same distance.

Bob Denning, Ed. Hatch, Chick Eagan and Paul Sullivan comprised the Tech team. Sullivan and Egan have run for Tech before while Hatch and Denning are newcomers on the Hill, but with a little more experience running together this combination ought to be able to turn in a very favorable record for the season.

George Wilde, Arthur Arnold, K. Krauche, and Arthur Hanley were the Rhode Island runners. Wilde gained about 2 yards and Arnold stretched it to eight, while the following two men managed to break even.

WHY NOT SAY "HELLO" TO MOTHER AND DAD?
—RATES ARE LOWEST AFTER 8:30 P. M.

N. H. GAME

(Continued from Page 1, Col. 4)

which made the count at the half way mark 21-13.

Once again the Wildcats opened up with a flurry of baskets with Bronstein showing them the way. After being held to a pair of free trys in the first half Bronstein staged a spectacular shooting exhibition, sinking eight double-deckers. Swenson let fly a high shot while under the hoop, making it two points for Tech, but Bronstein made another of his two-handed shots while in the air from near the foul line, lowering Tech's lead to four points. Walker pulled New Hampshire up to within two points with a neat play from the tap.

Tech got going again and began to find the hoop from all angles. The score mounted rapidly with Tech gradually pulling away from the visitors until the final gun found them ahead by a score of 47-38.

In the preliminary attraction the Jayvees came through with their initial win of the season by pinning a 17-14 set back on the Lincoln Square Boys' Club five.

A. S. M. E. NOTES

On Tuesday evening, February 13, at 7:30 an A. S. M. E. meeting was held in Sanford Riley Hall. A talk was given by a representative of the Boeing Airplane Company.

THE TAYLOR'S BENCH

The value of your college education depends very largely on your attitude toward it. Are you studying subjects, or are you taking courses? There is a great difference between these attitudes. The former indicates an eagerness to learn all you can about the facts and processes of a branch of knowledge. The latter may be only a determination to get a passing grade for a number of hours' work that someone has prescribed, and which has no apparent relation to any other work.

Too few men, I believe, see the picture of education as a whole, into which the various parts fit in logical sequence. Faculties may not be blameless in this. It might be helpful if the field of each branch of engineering could be described, in lectures or in printed form, in such a way that the need for studying descriptive geometry, mechanics, English, and all the other subjects would stand out clearly.

The catalogue descriptions of courses are pretty dry reading, I confess, but from them you can get a fair perspective on the whole picture. It might

also be profitable to devote a portion of the "bull sessions" to a discussion of this question. But above all, try to get away from thinking of education in terms of taking courses, as obstacles in the path to a degree.

INTERFRATERNITY B. B.

(Continued from Page 1, Col. 2)

P. S. K. was the high scorer of the season, getting ninety points for an average of eleven points a game. The second place in the scoring department went to Dick Howes who netted a total of sixty-three points for the season. The highest individual score for a single game went to Howes who garnered twenty-seven points again S. O. P., while Michel scored twenty five against the same team. The range of scores was great with P. S. K. getting the highest score of fifty-nine, and credit for the lowest score went to A. T. O. for a total of three points to their opponents thirty-six in the same game.

The summary:

	Won	Lost
T. X.	8	0
P. S. K.	7	1
P. G. D.	5	3
T. U. O.	5	3
L. X. A.	4	4
Friars	3	5

A. T. O.	2	6
S. A. E.	2	6
S. O. P.	0	8

FROSH SWIM MEET

Tomorrow afternoon at 4:30 the Freshman swimming team is scheduled to meet the swimmers of Classical High in the Fuller pool in the alumni gymnasium. This is the first chance for the Freshmen to show their prowess in this field of athletic endeavor. Following this meet the team will swim against the Lincoln Square Boys' Club, Worcester Academy, and perhaps North, South, and Commerce High Schools. There will probably be only five meets in all.

The following men will probably represent Tech tomorrow.

Relay, Marshall, Manson, Smith, Farrar.

Diving, Dearborn.

40-yard freestyle, Bushell, Farrar.

Backstroke, Hanson, Press.

200-yard freestyle, Bushnell, Chapman.

Breaststroke, Smith, Mann.

100-yard freestyle, Dearborn, Marshall.

*—the abc of
pipe tobacco*

*The best tobacco for pipes
comes from Kentucky... and it's
called "White Burley"*

WE use White Burley in making Granger Rough Cut. It comes from the Blue Grass region of Kentucky—ripe, mild leaf tobacco that just about tops them all for fragrance and flavor.

From the right place on the stalk we select the kind that's best for pipes. Then we make it into Granger by Wellman's Method and cut it up into big shaggy flakes.

White Burley tobacco—made the way old man Wellman taught us how to make it—that's Granger.

*"Cut rough to smoke cool"
is the way pipe smokers
describe Granger—try it*

*a sensible package
10 cents*

Granger Rough Cut

the pipe tobacco that's MILD

the pipe tobacco that's COOL

—folks seem to like it

CAMPUS LOW-DOWN

Another outburst of the spirit that never grows old, and another Senior E. E. inspection trip was written into the annals on Thursday last. Allowing for the characteristic hysteresis lag of the lads, things were not scheduled to start until quarter of three in the afternoon, but only a few were outwitted,—the rest came late as is the usual custom. By a previous division of the sheep from the goats, the former rallied to the sacred studios whence came the vocal offerings of one Mr. Gaylord, the latter easing their presences into Western Union headquarters. With Prof Newell in his element at WTAG, things went right merrily, notwithstanding the presence of another party from some girls' boarding school. A short venture on the roof was made, where everyone waved to all the office

help in sight while noting the peculiar construction of a stove-pipe with a 100-yard detour included in its length,—said pipe being held up by will-power and a truss with an invisible center link. Despite the efforts of the boys, the radio audience was disappointed as NBC held the air over all local talent offered. After all, the Federal Radio Commission might have been listening in.

After the weighing-in ceremony on the elevator at the Chamber of Commerce building, all and sundry took to inspecting the office help and operators, but soon turned to the machinery at hand; Mr. Johnson had failed again, just as he had failed on the Logan, Swift and Brigham proposition. However it didn't take long for everyone to take a hand at making out a few choice messages on the telotypes, said messages finding more or less permanent resting places on the back of numerous coats and jackets and at

least one missive found an address on the hill. Warning is hereby given to be wary of all telegrams for a couple of weeks from this date.

It was quite a problem for the gang to get to Chaffin's at 8 o'clock the next Friday, but somehow it was successfully managed. Charlie Allen gathered everyone together for general announcements, gave out the individual group assignments, then hastened to give out a personal assignment or two on power operations on the electric system, and the all-day waterwheel test was on.

Came the noon hour, and Charlie uncovered a reservoir of coffee, with plenty of cheese and doughnuts to govern the lines of flow. All hands took the part of observers in this noble experiment, using plenty of rod floats (cheese) weighted with a variety of sinkers.

There seems to be quite a lot of dis-

cussion about the Junior Prom. Guess a couple of Junior "Stink Pots" can't leave the chem lab and enjoy the nite with the rest of the class. We wonder if they will be the only two Juniors in class on Saturday morning.

Mortality rate seemed quite high this past week. However, we claim no connection with the cartoon posted in Boynton early this week.

And then there was a Fire Captain at a recent fire who was slightly ??? displeased at a graduate who kept crying, "We are lost," the captain shouted" as he stumbled up the stairs.

We now notice two fraternity pins where none stood before. A guilty conscience or a wise young lady or two, must be responsible to some extent. No names in this column—the E. C. is particular about that.

The first half of the Clark game always seems the same—a bum start and then enough spurt for the final pull through. So far so good.

Evidently our idea of Clark is the same as theirs for us from some of the "names" we were called the other night. Oh yes, judge others in terms of yourself must be a good proverb or something and Engineers know engineers—but—

How are YOUR nerves?

TRY THIS TEST

With arms hanging straight at your sides—standing in erect position—rise on your toes as high as possible. See how long you can maintain this position without teetering or losing your balance. Average time is one minute.

Irving Jaffee (Camel smoker), famous Olympic skating champion, can maintain the position 10 minutes.

Jangled nerves make you throw away vital energy

Jangled nerves are like a leak in your reserve of energy. And if you could count the units of energy a normally high-strung person wastes each day—the result would astonish you.

So if you find yourself drumming on your desk or table—or

indulging in any other nervous habits—start protecting your nerves.

Get enough sleep—fresh air. Make Camels your cigarette.

You can smoke as many Camels as you want. Their costlier tobaccos never jangle your nerves.

COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand of cigarettes!

CAMELS—

SMOKE AS MANY AS YOU WANT...
THEY NEVER GET ON YOUR NERVES!

TUNE IN! CAMEL CARAVAN featuring Glen Gray's CASA LOMA Orchestra and other Headliners Every Tuesday and Thursday at 10 P. M., E.S.T.—9 P. M., C.S.T.—8 P. M., M.S.T.—7 P. M., P.S.T., over WABC-Columbia Network

R. P. I. SWIMMING MEET

(Continued from Page 1, Col. 3)

won several close races from his team-mate, Davidson, in the sprints.

Summary:

400-yard relay, free style—Won by Rensselaer Polytechnic Institute (Davidson, Wunnenberg, Redfern and Maxwell); second, Worcester Polytechnic Institute (Wiley, Gray, Falvey, McNulty). Time, 3:52.7.

200-yard breaststroke—Won by Daily, Rensselaer; second, Smith, Rensselaer; third, Grublevskas, Worcester. Time, 2:47.

150-yard backstroke—Won by Machon, Rensselaer; second, Lane, Worcester; third, McNulty, Worcester. Time, 2:02.5.

50-yard dash—Won by Maxwell, Rensselaer; second, Davidson, Rensselaer; third, Gray, Worcester. Time, 25.6 sec.

440-yard swim—Won by Thompson, Rensselaer; second, Dugan, Rensselaer; third, Falvey, Worcester. Time, 5:53.

100-yard dash—Won by Maxwell, Rensselaer; second, Davidson, Rensselaer; third, Wiley, Worcester. Time, 58.7 sec.

Diving—Won by Henry, Rensselaer, 82.2 per cent; second, Bruce, Worcester; third, Crowell, Rensselaer.

220-yard free style—Won by Redfern, Rensselaer; second, Falvey, Worcester; third, Thompson, Rensselaer. Time, 2:35.

300-yard medley relay—Won by Rensselaer (Machon, Smith, Geise); second, Worcester (Lane, Grublevskas, Bergstrom). Time, 3:33.6.

Point score—Rensselaer Tech, 63; Worcester Tech, 21.

AERO CLUB NOTES

The Aero Club meeting was not held this week as scheduled because of its conflict with the A. S. M. E. meeting.

BONNET TALKS TO WORC. CHEM. CLUB**Former Tech Professor Speaks on "Rayon"**

Friday evening, January 26, Dr. Frederic Bonnet, Jr., addressed the Worcester Chemists Club. The title of Dr. Bonnet's address was "Rayon, Its Development, Properties, and Uses." Dr. Bonnet is a former Professor of Chemistry at W. P. I., where he taught for some fourteen years. He gave the historical background and development of the Rayon Industry. Illustrations of various forms of Rayon and the fabrics made from them and movies of the actual process of producing Viscose Yarn added greatly to the interest of the meeting. A discussion followed the meeting.

Dr. Bonnet received his B.S. from Washington University in 1899, his M.S. and Ph.D. from Harvard in 1902 and 1903, respectively. In 1903-04 he was an Instructor in Chemistry at University of Iowa and then he came to W. P. I., where he was an Instructor from 1904 to 1909, Assistant Professor from 1909 to 1912, and Professor of Chemistry from 1912 to 1918.

At the present time, Dr. Bonnet is employed by the Viscose Co. in Marcus Hook, Pa. Dr. and Mrs. Bonnet dined with Dr. and Mrs. Haynes Friday evening.

OPEN FORUM

(Continued from Page 2, Col. 5)

Be on your guard when all matter relating to the Junior Prom is discussed. And above all, be present at all class meetings so as to be able to cast your vote for decency, economy and fair play.

Yours truly,

LOUIS ROVNO.

* * *

To the Editor of the TECH NEWS:

Inasmuch as the subject of special assessments for the Junior Prom will soon be discussed in class meeting, I think this is an opportune time for expressing a generally believed legend, viz.: that a student who does not attend the Prom will have to pay Prom assessments before graduation. No student at the Institute has ever been prevented from graduation because of non-payment of a Prom assessment. The catalogue (page 46) states that indebtedness to the Institute must be paid before graduation. But obligations imposed by other students are not obligations to the Institute.

Law case books reveal further interesting facts. All those who attend the Prom may be held responsible for any deficit. But men who do not attend the Prom, and who have expressed their disapproval of some feature of the Prom arrangements, whether it be the holding of the dance, or the choice of a committee, or the price set by the committee, are not liable for any deficit incurred by the committee.

Those who dance must pay the piper, says the law. The common-sense justice of this is apparent, I think to any disinterested observer.

IRVING SKEIST.

BOWDOIN MEET

The Worcester Tech swimming team will swim against the Bowdoin men this coming Saturday afternoon in the Fuller pool. Coach Grant hopes to be able to repeat the victory of last year, but Bowdoin has a good medley relay team and backstroke, as well as a fine diver.

The probable lineup is as follows:

Medley relay, Lane, Grublevskas, Bergstrom.

220-yard, freestyle, Falvey, McNulty.

40-yard freestyle, Gray, Wiley.

Diving, Bruce.

440-yard freestyle, Falvey, Johnson.

Backstroke, McNulty, Lane.

Breaststroke, Grublevskas, Luszczynski.

100-yard, freestyle, Gray, Wiley.

Relay, Wiley, Gray, Falvey, McNulty.

They Satisfy

... people know it!

Same thing with a good
cigarette or a good wood-fire.

All you need is a light.

And all you want is a cigarette that keeps tasting right whether you smoke one or a dozen.

That's what people like about Chesterfields. You can count on them. They're milder—and they taste better.

In two words, they satisfy.
That says it.

Chesterfield

the cigarette that's Milder • the cigarette that Tastes Better
